Valin Corporation Becomes Authorized Provider of IACET CEUs

Prestigious Accreditation Demonstrates Commitment to High-Quality Lifelong Learning

San Jose, Calif. (May 24, 2016) –The International Association for Continuing Education and Training (IACET) has awarded Valin Corporation the prestigious Authorized Provider accreditation. IACET Authorized Providers are the only organizations approved to offer IACET Continuing Education Units (CEUs). The accreditation period extends for five years, and includes all programs offered or created during that time.

“Our educational programs help keep customers on the cutting edge of important process control and automation skills,” said Joseph Nettemeyer, President and CEO of Valin Corporation. “Our new partnership with IACET is a demonstration of our commitment to lifelong learning and high standards for all of our programs. We are very pleased to join such a prestigious organization, as well as an elite group of organizations, that offer excellent continuing education and training programs.”

“We are pleased to establish our relationship with Valin Corporation as an Authorized Provider,” stated Sandra L. Williams, PhD, president of IACET and assistant professor and consultant at Northeastern Illinois University in Chicago, IL. Williams added, “Valin Corporation joins nearly 500 organizations around the globe that have had their programs vetted by third-party experts in continuing education to ensure the highest possible standards are met.”

In order to achieve Authorized Provider accreditation, Valin completed a rigorous application process, including a review by an IACET site visitor, and successfully demonstrated adherence to the ANSI/IACET 1-2013 Standard addressing the design, development, administration, and evaluation of its programs. Valin has pledged its continued compliance with the Standard, and is now authorized to use the IACET name and Authorized Provider logo on promotional course material. In addition, Valin is now linked to the IACET web site and is recognized as offering the highest quality continuing education and training programs.
