**FOR IMMEDIATE RELEASE**

**Actril™ Cold Sterilant Demonstrates Complete Inactivation of 229E Human Coronavirus**  
*Valin Corporation partners with Cantel to stock sterilant for immediate shipment to customers*

**San Jose, Calif.** (April 14, 2020)— Verified by a third-party laboratory, Actril™ Cold Sterilant demonstrates the complete inactivation of the 229E human coronavirus strain on hard, non-porous surfaces in five minutes at room temperature. [Valin Corporation](#), a leading technical solutions provider in San Jose Calif., is positioned to get this critical sterilant into the hands of customers quickly to help combat the virus.

Actril™ Cold Sterilant is a powerful, ready-to-use disinfectant for use in small businesses, classrooms, airplanes, pharmaceutical cleanrooms and other critical infection prevention areas. Surfaces made from non-porous materials such as plastics, stainless steel or glass can be disinfected using Actril™ Cold Sterilant solutions.

Actril™ Cold Sterilant is extremely eco-friendly because it's raw materials are not listed as carcinogenic or mutagenic materials, does not produce toxic vapors, and is safe for the environment. It is completely biodegradable and will decompose into oxygen, water and cetic acid.

The health and wellbeing of our communities is our top priority.

Cantel products are available through [Valin's online store](#).
